- Version Control: Git, GitHub
- Tools: Visual Studio Code, Intellij Idea, Figma, canva, CapCut
- Soft Skills: Problem-solving, Teamwork Communication, Collaboration, Time Management

CERTIFICATIONS

- Foundation of User Experience (UX) by Google
- Problem Solving by HackerRank

LANGUAGES

- Bangla
- English

HOBBIES

- Travelling
- Cooking
- Playing Cricket

PROJECTS EXPERIENCE

◆ideaBolt: A Complete Full-Stack Blog Platform!

Repository Link

Key Features:

- User Authentication: Implemented secure user registration and login functionality.
- **User Interaction:** Enabled users to comment on blogs, like posts, save favorite blogs, and edit their profiles.
- Admin Dashboard: Created a centralized admin panel to manage users, blogs, comments, and contact messages with options to add, edit, or delete content.
- Contact System: Integrated a contact form for users to communicate with the admin, with messages stored and displayed in the admin dashboard.
- Database Management: Utilized MySQL for efficient storage and retrieval of user data, blogs, comments, and contact information.
- Responsive Design: Ensured a mobile-friendly and intuitive interface using Tailwind CSS for seamless navigation across devices.

Technologies Behind ideaBolt:

HTML | Tailwind CSS | JavaScript | PHP | MySQL

◆ Baskify: A Complete Full-Stack E-Commerce Platform!

<u>Live Preview</u> | <u>Repository Link</u>

Key Features:

- Registration & Login: Smooth and secure user authentication using JWT.
- Product Search & Categories: Quickly find the products you love by name or category.
- Product Reviews & Comments: Users can share their thoughts, making shopping more social.
- SSLCOMMERZ Integration: Secure, reliable payment processing for hassle-free transactions.
- Admin Panel: Full control to manage users, products, orders, and categories.

Technologies Behind Baskify:

React.is | Tailwind CSS | Redux.is | Express.is | MongoDB | **SSLCOMMERZ**
